## **SUPPLIES FOR BARIATRIC DECEASED PATIENTS**

Due to the minority of deceased patients requiring bariatric supplies it has been deemed impractical for all wards or departments to have an individual supply of bariatric body bags and bariatric disposable shrouds. If you require any bariatric supplies for the final act of care, contact the hospital mortuary or Clinical Nurse Managers office as they now have stock readily available. However, if your ward or department regularly cares for bariatric deceased patients, then of course you can order an individual supply via the top-up service.
