The Disabled Living Centre (DLC) has a display of equipment to assist independent living for people with physical disabilities, their carers and professional staff.

The centre

It is a demonstration and information resource centre concerned with the practical aspects of daily living. People can try out an up-to-date range of equipment.

Qualified staff are available to assist visitors to make an informed choice about equipment options.

The range of items on display at the centre includes kitchen equipment, upright chairs, rise recliners, stairlifts, bath lifts, bath boards and seats, beds, dressing aids, powered wheelchairs, scooters, manual wheelchairs, four wheeled walkers with a seat, power packs and ramps.

Exhibitions and training

Throughout the year we organise exhibitions and training for health care professionals. These sessions provide an opportunity to learn about what is on the market relating to a specific subject. Usually there are associated seminars and an opportunity to see products from a variety of companies.

Visiting the centre

The centre is open from Monday to Friday; 8.30am - 4.30pm. To visit the centre you need to make an appointment and complete a self-referral. The centre is fully accessible.

Enquiries are welcome:
