

# Signalong Videos – Outdoors

## Information for parents and carers

Signalong is a key word signing system which is designed to be used to support individuals with communication difficulties. It is best to introduce signs that are relevant for the person you are supporting.

The NHS Lothian Speech and Language Therapy service have created some videos to support the use of Signalong.

These videos listed below cover a range of basic vocabulary that should be useful to use when playing and spending time outdoors.

Please use the video link below or scan the QR code to watch the video.

If you have any questions, please contact your local Speech and Language Therapist.
