

Communication Partner Skills Part 1

This video, produced by Assistiveware, talks about the skills needed to help a new Alternative and Augmentative Communication (AAC) user or someone who is still developing their AAC skills.

This video is 47 minutes long.

It highlights the work that communication partners need to do and shifts the focus or responsibility from the user to the partner.

It is relevant for both children and adult AAC users.

Please use the link below or scan the QR code to access Assistiveware: AAC resources and select **Communication Partner skills Part 1, to watch this video.**

If you have any questions, please contact your local Speech and Language Therapist.
